REPORT OF REMEDIAL INSTRUCTION (2020-2021)

The remedial teaching of the academic year started on 6th March 2021. Dr. Smitha S., Assistant Professor in General Education was in charge of the class. The topics revised for the students who felt learning difficulty included philosophical perspectives of Education with special reference to eclectic tendencies in education and sociological perspectives of education with special reference to National Integration and International understanding.

On 13th march 2021, Dr Sangeetha N R., Assistant Professor in General Education was in charge of remedial instruction and the concepts taught include personality and Intelligence. The specific content and theories were explained in mother tongue. On 20th March, Smt. Chitra S. revised topics related to ICT in Education with special reference to Learning Management System and development of educational software. The terms and explanations in the topics were difficult for students from Malayalam. So, it took more time to revise the whole content

On 27th March, remedial classes were arranged in different optional subjects. The major difficult areas included methodology of teaching and various concepts and lack of adequate content competency in school curriculum at the secondary level. The emphasis of reteaching included explanation of concepts as well as group discussions with the students and preparing them to complete the content analysis of each area of discussion. The remedial teaching programme included discussion on previous question papers in the University Examinations.
