Aim of the programme was to make others aware our mother nature and teach the importance of conservation of our rich biodiversity .

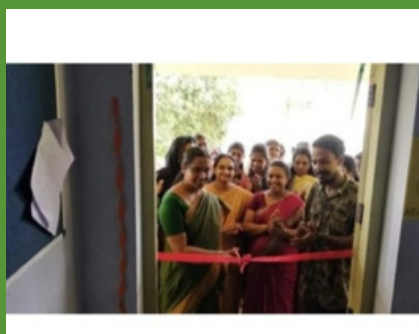

**READ MORE** 

The association members implemented the program during the thought of the week program on October 10, 2019, and the program lasted for more than the entire second week of October. The program was a huge success among college students.

# ZOOBO FEST 2019

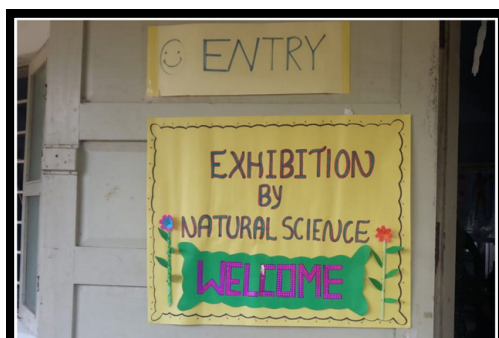

➤➤➤ On October 18, 2019, the natural science department organised an exhibition as part of the B. Ed. curriculum. The exhibition was named "ZOOBO Fest 2019." The principal of S.N. Training college, Dr. Sheeba P, inaugurated the programme. The programme started with prayer at 9.30 a.m. The exhibition was open to all students and teachers. All faculty members and students of SNTC visited the exhibition. Different types of models related to different branches of biology, like animal specimens, medicinal plants, a model of the human skeleton, apparatuses, and anatomical diagrams, were presented, and student representatives of the Natural Science Association explained all sorts of details about the exhibits.

## GLIMPSES:

## ➤➤➤ MAIN ATTRACTIONS:

On that day, at 11 a.m., members of the natural science club arranged our classroom with herbarium sheets and specimens, and from 2 o'clock, they decorated the hall beautifully with socially useful and productive works. That part of the exhibition was truly a feast for the eyes of every visitor.

# STUDY TOUR TO TRIVANDRUM MUSEUM

On October 25, 2019, the Natural Science Association conducted a study tour to Trivandrum Museum. Dr. Dhanya B. Chandran, assistant professor of the natural science department, was the guide and coordinator of the programme.

## VISION OF THE PROGRAMME

Without a doubt, one of the most important functions of institutions is to connect and inform the population. Museums showcase people's interest in a topic, an item, a historical era, or even an idea - yet there's more teaching happening in museums than one might assume. Even the museums have fascinating histories that can inspire and enlighten visitors. It's practically difficult to escape a museum sans having been taught something new or received some perspective. Some people are interested in learning about history, while others are interested in learning about the place they are going to or would like to enjoy culture and history. Museums are fantastic places to meet new people, learn about our ancestors' lives, and broaden our horizons. Along with gaining knowledge, personal memories produced in museums have no time limit.

## FOOD FEAST

On December 19, Natural Science Association members conducted a marvellous food feast. On that day, various spicy and tasty foods were prepared by each student-teacher of the department. All the students from other departments and faculty members visited and had treat during the feast. Club members reported that "it was definitely a different experience and helped to increase cooperation among them while making memories for a life time".

# THOUGHT FOR THE WEEK

by Natural science association

## TOP NEWS OF THE MONTH

# NATIONAL SCIENCE DAY CELEBRATION

## TOP NEWS OF THE MONTH

### ➤➤➤ READ MORE

February 28 is National science day. As a part of Science day celebration natural science association organized science exhibition. Natural science department exhibited plants, specimens, charts etc.

### VISION OF THE PROGRAMME <<<

science exhibition is a wonderful tool that engages students in learning new facts. It develops in them the curiosity to learn more which otherwise is not developed by listening to boring lectures. It provides a platform for the students to use their scientific knowledge and bring the best invention from their brains

# CONSCIENTIZATION ON COVID-19

Natural science department presented a COVID awareness video on 30 th April 2020.They included general idea about COVID-19,it's orgin, Nature, Statistics, Fake newses, control measures etc. in the video. The conscientization programme was fruitful. All students from different departments and all faculty members of S.N. training college attended the programme.
